🔍 The Role Expanded

We are seeking Business Development Managers to grow relationships with suppliers of equipment, progressing them to recommend leasing and asset finance to their customers.

Once you have built their trust, your focus will be on supporting their leasing agreements. Our internal team will handle a lot of the paperwork, we just need you to dig up the new business leads and manage them through the sales cycle.

Working as a 'hunter' you will uncover leasing opportunities and over time become an account manager, spending your days speaking to your accounts that you have built a relationship with.
